#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The indicated allowability of claims 1-14 is withdrawn in view of the newly discovered reference(s) to Graether (US Patent 4,610,689). Rejections based on the newly cited reference(s) follow.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Graether (US Patent 4,610,689) in view of Gundersen (US Patent 4,575,372).

Graether discloses an intraocular lens. As shown in Fig. 1, the lens comprises body 12 and loops or stems 14 and 16. At col. 4, lines 54-59, Graether discloses that terminal ends 18 and 20 of loop members 14 and 16 are positioned in channels 26 and fused by a heat probe or ultrasonic probe.

However, Graether does not disclose the details of the fusing operation.

Regarding this difference, the applicant is directed to the reference of Gundersen.

Gundersen discloses a method and apparatus for manufacturing an intraocular lens. As shown in the figures, loop material 36 is positioned in base 22 and held by clamps 34 and 35. Ultrasonic horn 74 then engages and welds the loop materials.

It would have been obvious to one having ordinary skill in the art to employ the feeding, mounting and ultrasonic welding systems taught by Gundersen in the system of Graether in order to facilitate fusing the loop members to the lens.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 11-12 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11, line 2, "2said" should be changed to – said --.

Claim 14, line 5, "'between" should be changed to – between --.

***Response to Arguments***

6. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

***Telephone/Fax***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Sells whose telephone number is (571) 272-1237. The examiner can normally be reached on Monday-Friday between 9:30 AM and 6:00 PM.

Art Unit: 1734

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Fiorilla can be reached at (571) 272-1187. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

***Conclusion***

8. Accordingly, this action is made non-final.

A handwritten signature in black ink, appearing to read 'JS', is written over a horizontal line.
